Memorandum

To: Members of the City of Bloomington Common Council

From: Michael Trexler, Controller, Controller's Office

Date: July 16, 2008

We are pleased to present the 2009 Budget Proposal for the City of Bloomington.

This Budget Proposal furthers the City's mission to preserve and enhance the distinct identity of Bloomington, Indiana, by providing essential municipal services and high quality economic, environmental, social and cultural programs and initiatives by addressing and strengthening the 4 strategic initiatives laid out in our Strategic Plan; Commerce, Collaboration, Condition and Character. Throughout this proposal, you will see how each of the City's Departments addresses these strategic initiatives. We ask your support for the numerous ways we intend to progress the mission of the City, which you will see detailed as you review the budget document.

Similar to the 2008 Budget, our 2009 proposed expenditures exceed projected revenues in our levy controlled funds in order to invest cash reserves generated through sound fiscal management back into the community.

With Council's support, we believe we have successfully weathered state government funding cuts as well as state legislative property tax adjustments to the point where there is more stability in our fiscal picture.

The City's cash reserve will remain healthy with a total General Fund cash balance of \$2,188,954 and a Rainy Day Fund balance of \$4,808,698. One cautionary note is the 2010 expenditures will very likely have to be balanced around 2010 revenues in order to maintain this level of reserve.

Operating and capital investments of which we are particularly pleased include:

The addition of 4 new police officers as part of our commitment to add 10 officers in 5 years. In fact, this addition will actually fulfill that commitment one year early.

- Pay increases for our non-union employees.
- Contractual pay increases for our Firefighters, Police Officers and AFSCME employees.
- Address existing and new Parks operating and capital priorities.
- Continued commitment to the greenways, sidewalks and other infrastructure.
- Increased funding as part of a multi-year plan for the Jack Hopkins Social Service Fund.
- The creation of a standalone department of Economic Development to best achieve our goal of promoting economic vitality in Bloomington.

It should also be noted that we are pursuing additional significant initiatives via other funding sources such as tax increment financing and state and federal grant programs.

The combined 2009 budgets for the five levy controlled funds (General Fund, Parks General Fund, Cumulative Capital Improvement – Rate, Police Pension and Fire Pension) total \$42,091,526, a reduction of \$727,437 below the 2008 budget including appropriation ordinances approved through July 11, 2008. Our total appropriation request is \$61,456,520, an increase of \$923,488 over the 2008 Budget including appropriations approved through July 11, 2008. After removing interfund transfers from these amounts, the total appropriation request represents an increase of \$110,243 over the 2008 Budget, or 0.2%

I have included a "Summary Statement of General Fund and Fund Balance" in the introductory section to give you a clear picture of the cash flow in the General Fund. The pages that follow are budget comparisons and graphs. Please note that on the line item budgets and summaries, the 2007 Budget amounts include all approved appropriations and the 2008 Budget amounts include appropriation ordinances approved through June 30, 2008.

Once again, I would like to convey my thanks to the people who worked so hard to provide you with this budget including the Controller's Office staff, Julie Baker, Derek Farnsworth Jeff McMillian, Tami Mitchner, Susan Truelock, Brad Underwood, and especially Alisa Wood. In addition, I would like to thank each of you for your guidance, input, and direction throughout the budget process.

Respectfully,

Mike Trexler

Department of Employee Services

Memorandum

To: Members of the City of Bloomington Common Council

From: Daniel Grundmann, Director, Employee Services

Date: July 16, 2008

Employee Services has taken a zero-based approach to budgeting for 2009 and used the City's strategic plan as our conceptual guide to activities for 2009. It is the City's mission to provide high quality programs and services that enhance the unique and individual character of Bloomington. We strive constantly to improve the quality of life for our community by achieving the highest standards of integrity and maximizing the use of City funds and resources.

As an organization we emphasize our commitment to community commerce, collaboration, condition and character. Our staff works collaboratively with external businesses and agencies and, as an internally focused department, Employee Services is a partner to every City division. We support the entire organization through the following program areas:

<u>Staffing and Workforce Maintenance</u> includes recruitment, selection, orientation, employment and post-employment activities. Process management, diversity initiatives, record keeping and quality assurance are characteristic of this area.

<u>Personnel Policy</u> includes the development, interpretation and application of workplace guidelines and procedures. This includes policy revision and interpretation for employees and managers. Research, analysis, knowledge and application of employment law, communication, collaboration and judgment are characteristics of policy development and implementation.

<u>Employee Relations</u> includes management coaching, employee consultation, labor relations, employee communication and grievance procedures. Mediation, assessment and negotiations are characteristics of this process, which relies heavily on judgment, relationship-building and rapport.

<u>Compensation & Benefits</u> includes research, policy development, revision, implementation, analysis, trending, financial forecasting and employee communications.

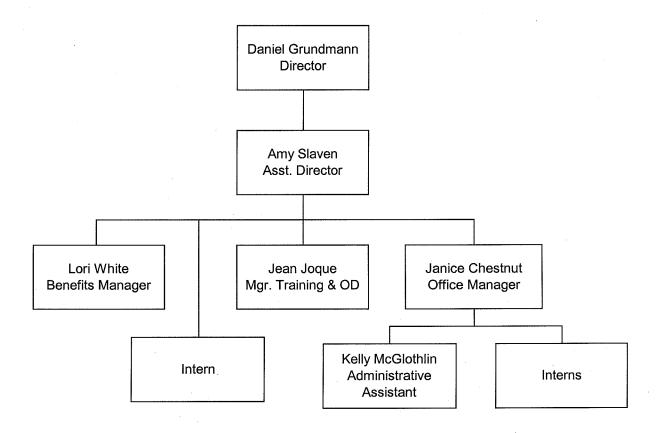

<u>Training & Development</u> is the development and evaluation of both individual employees and the organization as a whole. This program area includes employee and supervisory training, performance evaluation, and work flow process analysis and improvement.

<u>Community Collaboration</u> is the active participation and development of community-wide Human Resource related initiatives. This program area consists of committee involvement, community partnerships and board participation. Thorough knowledge of human resources, benefits, communication and judgment are characteristics of this process, which is geared toward improving community condition.

For 2009 our desire is to enhance our focus on creating a workplace culture that emphasizes the value of development, recognition and job enrichment. To this end we are requesting approval of increases related to training and development. These increases are reflected in lines 242, 316, 323 and 399 of our legal budget. We will use the allocation, if approved, for more advanced online training development software, professional staff development and training services.

Based on trend analysis and forecasting given the zero-based approach, we are also requesting decreases to budget lines 211 (office supplies) and 332 (advertising).

Memorandum

To: Members of the City of Bloomington Common Council

From: Kevin Robling, Corporation Counsel, Legal Department

Date: July 16, 2008

The budget of the City of Bloomington Legal Department is reflective of the department's unique mission. That is, the City Legal Department exists to, for the most part, serve the other departments, boards and commissions of the City. In a nutshell, the City Legal Department is responsible for assisting in defending and protecting the interests of the City as an organization. While each department, board, commission and employee is the Legal department's client at one time or another, the City of Bloomington is the Legal department's client seven days a week, 24 hours a day.

Organizationally, the Legal department consists of what everyone thinks of when they think of "Legal" – the lawyers, legal support staff, and the law library – but it also consists of the Human Rights Division and the Risk Management Division. The budgets are broken down accordingly.

Despite being inherently an internal service department, the Legal department is also a key player in serving the City's focus on the 4Cs - Community Commerce, Collaboration, Condition and Character. By keeping an eye towards these key, fundamental aspects of the City's mission, the Legal department helps ensure – and helps other departments ensure – that the vibrant quality of life in Bloomington continues into the future.

Legal takes very seriously its role in ensuring that the City acts as responsible stewards of the taxpayers' money by closely advising varied departments – including the Controller's Office, the Office of the Mayor and the Office of Economic Development – and, by doing so, contributes strongly to **Community Commerce**. Examples also include Legal's continued efforts to negotiate a successful purchase of the CSX Switchyard and to wind various City departments through the bureaucracy and red-tape necessary to keep the B-Line Trail project "on track." No pun is (necessarily) intended.

We are a country of laws and the City is no different. The Legal department is

responsible for all legal research, interpretation and evaluation, and for providing legal advice to the City's various departments. In addition, the Legal department drafts and reviews all legislation presented to the Common Council as well as agreements (such as interdepartmental or interlocal agreements), contracts, leases, deeds, opinions and correspondence. **Community Collaboration** – especially with Community defined as the internal clients of the department – is clear.

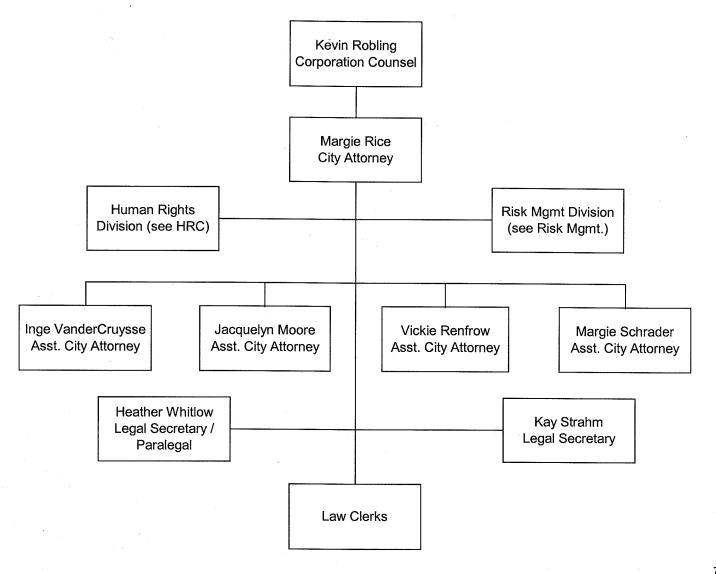

By serving as the chief enforcement officer – the municipal prosecutor, if you will – responsible for enforcing the City's ordinances, the City Legal department ensures that **Community Condition** remains strong and that Bloomington remains a place where people want to live, learn, work and play. The Human Rights Division of the Legal department also plays a key role in maintaining (or improving) the community's condition as it is tasked with enforcing the City's Human Rights Ordinance, ensuring that the City complies with all civil rights laws, and resolves disputes about accessibility within the City. The Human Rights Division also educates community members about their rights and responsibilities under applicable civil rights laws through publications, workshops, public forums, etc.

As each of the Cs are discussed, it is clear that the three mentioned above all relate directly to and promote the last – that of **Community Character**. The City of Bloomington is a special, unique place to live and has been for generations. It is a place where people come from across the country (and the globe) to live, to work and to attend school. Why? Because it's Bloomington. Nearly all that the City Legal does every single day promotes, in one way or another, the character of Bloomington. Whether it is in enforcing over occupancy restrictions in core neighborhoods, training and monitoring the safety of City employees through the Risk Management Division or providing sound legal counsel to the City's Safe & Civil City Program, City Legal is intimately involved in protecting what we all find so important.

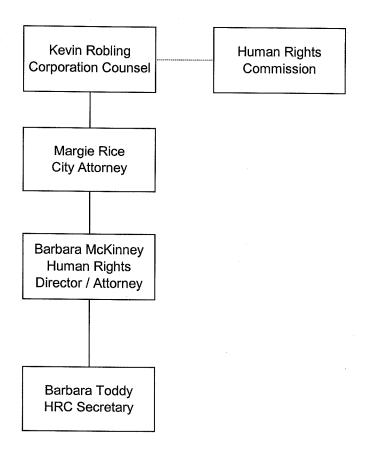

Conclusion:

The Common Council works as closely with the City's Legal Department as with any other single department. The Council is familiar with the programs that Legal serves, the responsibilities with which it is tasked, and the attorneys and support staff which keep the department going. Your support for the proposed budget of Legal – including that of the Risk Management Division, the Human Rights Division and the Board of Public Safety – is much appreciated.

LEGAL

HUMAN RIGHTS DIVISION

Memorandum

To: Members of the City of Bloomington Common Council

From: Information and Technology Services Department

Date: July 16, 2008

This memo pertains to the 2009 ITS line-item and Telecommunications Nonreverting Fund budget proposals. This 2009 budget proposal was crafted using a zero-based budgeting approach and integrates with the City's emerging strategic plan and Mayor Kruzan's strategic initiatives: Community Commerce, Community Collaboration, Community Condition and Community Character.

ITS is primarily an internally servicing department providing the technical foundation for City operations. Our mission is to provide — through the forward-looking application of information technology — the omnibus IT services, tools, training and resources necessary to maintain mission-critical City systems; empower City staff to excel in their work; and engage our community electronically in its own governance. We support and enable the operations of the City and through that work further the City's mission to preserve and enhance the distinct identity of Bloomington, Indiana, by providing essential municipal services and economic, environmental, social and cultural programs and initiatives of the highest standards.

I wish to acknowledge and commend ITS staff for their hard work and assistance in crafting this budget. Applying a zero-based methodology necessarily involves all staff to a greater extent in the budget process than would otherwise be the case. Their contribution in all aspects of their work is greatly appreciated.

ITS is divided into three operational divisions: Technology Support, Systems & Applications, and Geographic Information Systems. But our work covers a lot more ground than these areas would indicate. Our general areas of operations include:

- Planning/Administration/Operations
- Technology Support
- Multimedia Digitization, Capture & Production Support
- Networking & Network Security
- Systems & Server Administration

- Enterprise Systems Support & Maintenance
- User Needs Assessment and Systems Analysis
- Application Development & Programming
- GIS Technology, Spatial Data Production, Maintenance & Analysis
- Public Initiatives, Commissions & Community Telecommunications Support
- Technology Training
- Website, eGovernment & Public Communications Technology

Although broad in responsibilities, the major elements of our 2009 budget proposal are centered on core IT needs such as computer capital replacement, software maintenance, and building staff capacity through the addition of an FTE Technology Support Specialist and increased funding for staff travel and training. The major elements of the 2009 ITS budget proposal follow:

The most important aspect of our ITS budget proposal is our request to add staff
capacity in frontline desktop technology support to meet the increased services and
support needs of City staff. City staff are using existing technology more frequently
and in greater depth. We are continually deploying new and more specialized
systems. Staff are broadening their use of technology beyond desktop and standard
applications.

We currently have three Technology Support Specialists who provide handson support to City staff at 27 supported sites throughout and outside of the City of Bloomington corporate boundary. One serves at the Utilities Service Center, one serves at City Hall, and one at remote sites including Police, Fire, and divisions of Parks and Public Works. Despite our exemplary staff there is simply more demand for technology support than we have staff resources to accommodate at the level of excellence our sister departments and our strategic plan demands. We request an additional FTE Technology Support Specialist position be added to our Technology Support group to provide additional support capacity.

 The City's strategic plan calls for investments in building staff capacity through education and training opportunities — embracing the City as a learning organization. This is particularly critical to ITS; our ability to innovate and bring new technology into the enterprise is dependent on the skill and professional knowledge of our team.

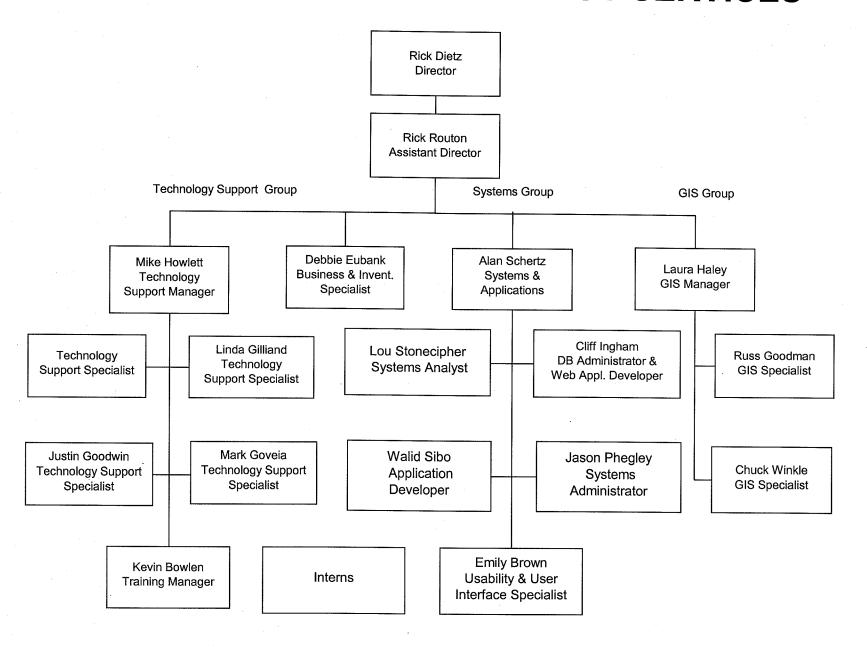

We propose increased travel and training funding, allowing targeted ITS members the opportunity to pursue certifications or other relevant training opportunities. After several years of limited training opportunities this proposal is an important step toward to building a learning organization in ITS, retaining highly qualified, skilled and empowered employees and rewarding staff with professional development opportunities of which all of the City will benefit.

 We propose increasing our office supplies based on our zero-based needs and to accommodate our proposed FTE Technology Support Specialist.

- We propose the continued funding of our capital replacement cycle for desktops, laptops, monitors, printers and peripherals in 2009. We also provide for the scheduled replacement for servers and critical networking equipment.
- We propose in this budget to assist the City in reducing General Fund expenditures in 2009. We are tapping the Telecom Nonreverting Fund for certain expenditures as well as two smaller ITS funds: the Enhanced Access Fund and Electronic Maps Generation Fund.
- We provide for the funding of Community Access Television Services (CATS) in 2009. CATS provides video services to the City and Bloomington public. CATS is jointly funded by the City, Monroe County government and the town of Ellettsville. Investments in public access and community media ensure an open, approachable and interactive government where citizens are part of the decision making process.

There are other facets of the 2009 budget that I am looking forward to discussing with you. I think you will find the ITS proposal in keeping with the City's Strategic Plan, the Mayor's vision for our community and sound IT management. I would appreciate your feedback and support.

Memorandum

To: Members of the City of Bloomington Common Council

From: Michael Trexler, Controller, Controller's Office

Date: July 16, 2008

The following pages contain the 2009 Budget Proposal for the Controller's Office and those Funds directly related to the duties of the Controller. The main objective of the Controller's Office is to provide Bloomington with strong financial management. This central objective is achieved through seven program areas including Accounting & Auditing, Cash Management, Budgeting, Research & Special Projects, Financial Reporting, Capital Finance & Accounting, and Grants. Although the Controller's Office only addresses one of the City's strategic initiatives directly, we assist other departments in fulfilling these initiatives in our role as an internal service department.

Community Commerce

The Controller's Office works closely with the Department of Economic Development to enhance Community Commerce and address the needs of our local economy. One of the goals of my Department is to more fully utilize TIF funds. To that end, we have established a team to examine and revise the plans for each TIF district, to identify projects and incentives that will encourage smart growth within each district, and to provide for the future needs of the districts though sound fiscal management.

Community Collaboration

As an internal service department, Collaboration is at the very heart of everything we do. We work closely with each of the other City Departments to ensure they have funding for all of their programs, to ensure these programs are funded in accordance with Generally Accepted Accounting Principals and State law, and to ensure that these programs are sustainable in the long run.

We also work closely with State agencies such as the Department of Local Government Finance (DLGF) and the State Board of Accounts (SBoA); non-governmental organizations including the Indiana Association of Cities & Towns (IACT) and any number of private organizations that wish to do business with or in the City. The Controller's Office relies on these organizations and our shared goals

to accomplish the vision laid out in the Strategic Plan. As a result, we are requesting an additional \$1,190 in our Instruction and Travel lines to attend workshops provided by these groups.

Community Condition

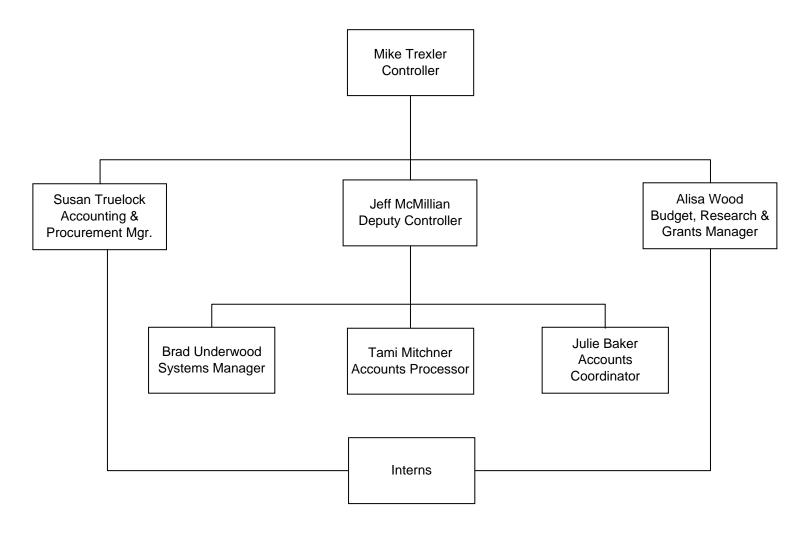

Through its collaborative efforts with other City Departments, the Controller's Office strives to improve the condition of our community. This is largely accomplished through our efforts to improve the City's financial condition. Cash management represents one of the core responsibilities of the office and relates to each and every program of the City.

Beginning this fall and continuing though 2009, the Controller's Office will be examining the way in which it invests funds with the goal of securing the highest possible return on investment while maintaining the highest level of liquidity. We are currently considering two proposals that would further this goal by investing City funds in money market accounts to not only ensure a high return and increased liquidity, but reduce the amount of time the Controller's staff spends working with investments, allowing them to spend more time on other aspects of their positions. In 2009, we will be evaluating and refining this process to determine its overall effect on the City's investment income and identify other beneficial changes to our cash management policies.

Community Character

As with the other strategic initiatives listed above, the Controller's Office works closely with other City departments to safeguard and develop the unique character of our community. In 2008 and 2009, our office is working with Parks & Recreation, the Redevelopment Commission and State agencies to secure funding for the B-Line Trail. This project exemplifies the character of our community and the Controller's Office staff is proud of our role in making it a reality.

Memorandum

To: Members of the City of Bloomington Common Council

From: Maria Heslin, Deputy Mayor

Date: July 16, 2008

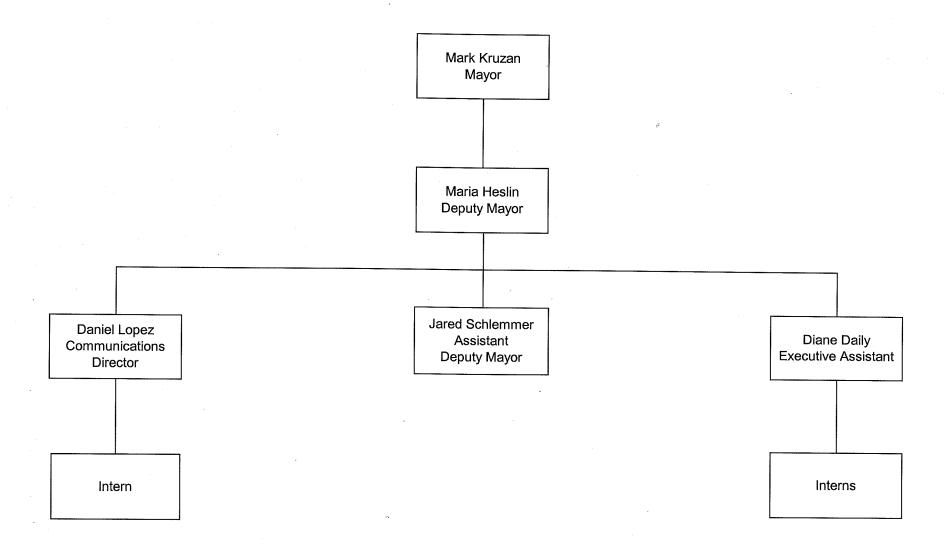

This memo accompanies the proposed 2009 budget for the Office of the Mayor (OOTM). The underlying mission of the City of Bloomington is to enhance our community's quality of life by strengthening our Strategic Initiatives, which we fondly refer to as the 4Cs: Community Commerce, Condition, Collaboration and Character. The Office of the Mayor staff provides organizational leadership and direction by working with every City department to fulfill the City's mission and enrich each of these Strategic Initiatives.

This year OOTM has spearheaded ongoing strategic planning and project management processes with input and support from every City department. This has resulted in: a collaborative approach to identifying top priorities; a singular vision for an organization-wide direction to governance; creative avenues for departments and staff to work together to address the 4Cs; a new approach to project management with a focus on goal-setting and progress tracking; and a new approach to budgeting, which allows us to build our budgets from scratch and better tie needs to priorities.

Additionally, the Office of the Mayor provides direction for communications regarding City programs and services. OOTM staff works with all City departments to ensure the community is informed of everything our organization has to offer, and to communicate how and where tax dollars are put to use.

Approval of our budget request will enable us to continue providing guidance to and working closely with the exceptional department heads and staff that constitute the City of Bloomington organization. We will continue working as a team to make Bloomington an even better community, strengthened by a diversified, vibrant economy and committed to furthering sustainable development, arts and culture, infrastructure, public safety, trails, recreational opportunities, civic engagement, animal welfare and effective City governance.

Department of Economic Development

2009 Budget Proposal

Memorandum

To: Members of the City of Bloomington Common Council

From: Danise Alano, Director, Department of Economic Development

Date: July 15, 2008

City of Bloomington Mission

"To preserve and enhance the distinct identity of Bloomington, Indiana by providing essential municipal services and economic, environmental, social and cultural programs and initiatives of the highest standards."

Department of Economic Development Mission

As the economic development function of the City exists currently within the Office of the Mayor, a complementary mission statement has not yet been adopted. However, the overall vision can be stated simply: to create the best environment in the U.S. among Bloomington's peer cities for economic growth by improving the city's quality of life.

Department of Economic Development and the Four Cs

The fundamental principle driving the City's economic development efforts is that economic vitality is synonymous with quality of life. Therefore, the economic development function is arguably the one that most comprehensively ties together all of the City's strategic initiatives (The 4Cs: Community Commerce, Collaboration, Condition and Character). Minimally, a review of the attached budget proposal can easily demonstrate that programs within Economic Development are designed specifically to address one or more of the 4Cs. A more appropriate perspective, though, is that the City's economic development strategy encompasses all City departments working in concert toward advancing all four Cs in a balanced and inclusive manner.

While **Community Commerce** is the central organizing principle for all programs of the Department, each of the other 4Cs is met programmatically as well. **Community Character** is reflected, for example, through Arts as Economic Development programs (e.g., public art maintained by the City Parks Department and the Bloomington Community Arts Commission provides an attraction for Bloomington visitors). **Community Condition** is reflected in workforce development efforts (e.g., collaborations with educational and training agencies) and sustainable

development initiatives (e.g., the Change-a-Light program and green building education). **Community Collaboration** is reflected not only through supporting partnerships with dozens of social services, arts and sustainability organizations but also in our business advocacy, ombudsman and assistance efforts (e.g., Business Investment Incentive Loan/Grant Fund).

Indeed, most programs hit all of the 4Cs. Emblematic of this is business assistance and incentive program the ED and Parks Department staff are developing related to the B-Line Trail. The B-Line is an alternative transportation route that can help citizens reduce their carbon footprint (Community Condition), is the *art*ery of the Bloomington Entertainment and Arts District (Community Character), is a source for new market share for businesses on and near the Trail (Community Commerce), and with its plaza areas will provide opportunity for assembly, performance and organization (Community Collaboration).

Background

This 2009 request marks the first time that a separate Economic Development program budget is being proposed. In previous years, any budgetary needs of the Economic Development staff were included within the proposals of the Office of the Mayor. The 2009 request reflects the migration, as planned, of the Economic Development staff into a stand-alone City department, the Department of Economic Development, as provided for by IC 36-7-12-4.

As this is the first budget proposal ever prepared by the Department, the City's "zero-based budget" model was a relatively straightforward approach to adopt. We indeed were building a brand new program where the budget was concerned.

It is expected that future Economic Development budget proposals will include greater sophistication in allocating funds within specific program units and their related programs and services. For 2009, though, the already existing structure of the "Promotion of Business" budget line is utilized to capture the Department's combined program budget needs.

Budget Highlights and Priorities

- 1. Business Assistance, Advocacy and Incentives (Commerce)
 - Targeted economic revitalization areas in the city such as the two Community Revitalization Enhancement Districts, the six Tax Increment Finance Districts, the Certified Technology Park and the Urban Enterprise Zone, are areas of high priority for the Department in retention, recruitment and expansion efforts. As each has its own revenue sources, programs here do not directly impact this budget proposal.
 - The Promotion of Business fund includes a focus on entrepreneurial and small business assistance through a planned collaboration with a second Start-up Weekend at City Hall as well as through renewed focus on the downtown technology business incubator which will support the City's application for renewal of the Certified Technology Park in early 2009.
- 2. Team Green and the Sustainable City Initiative (Commerce, Condition, Collaboration)
 - Infrastructure funding as a match for federal and/or state grants for a planned
 Alternative Energy Program will be sought from the Downtown TIF for such projects

- as wind or solar energy pilot programs for City facilities. In addition, Team Green plans to install daylighting sensors at City Hall to leverage natural lighting features of the building to conserve energy.
- Projects and programs in the Promotion of Business fund include collaborations with other agencies and initiatives to develop and promote a "Buy Local" program, and outreach to businesses to promote green business practices to reduce the community's carbon footprint.

3. Arts as Economic Development, and the Bloomington Entertainment and Arts District (Character, Commerce)

- Included in the Promotion of Business Fund is a competitive Artnership Grant Program which will support public art projects, collaborative projects between BEAD partners and audience development projects.
- Also included are plans to formalize collaborations with entities such as the Convention and Visitors Bureau and others to partner in regional promotion of BEAD.

4. Social Services as Economic Development (Condition, Commerce, Collaboration)

 Forging collaborations with social service agencies engaged in workforce development, in empowering individuals and families, in addressing poverty and homelessness and other underserved populations, are a key component of the Department's economic development strategy.

5. Professional Development (Condition)

Professional certifications and other development opportunities will further the
effectiveness of the Department, particularly as the migration progresses closer to a
stand-alone department. This budget request increase reflects an enterprise-wide
commitment to augment the knowledge and skills of City staff to better serve the
organization's mission.

Please do not hesitate to contact me with any questions. I welcome the opportunity to discuss this proposal further with you.

Memorandum

To: Members of the City of Bloomington Common Council

From: Michael Diekhoff, Chief, Police Department

Date: July 16, 2008

Thank you for the opportunity to present to you the 2009 budget request for the City of Bloomington Police Department. My goal since taking over as Chief in January is to completely review how the police department operates with an eye toward efficiency and cost savings. I, along with my administrative staff, have been reviewing all areas of the department with the mission of providing policing services that adhere to the highest standards of integrity and quality and reflect the needs of the citizens of Bloomington.

In the preparation of this budget we have looked at the strategic priorities and initiatives of the City. This budget will contribute to and add upon those priorities.

Community Commerce addresses the needs of our local economy. A strong local economy and safe place to do business is an important component of a high quality of life for residents. Public safety is a crucial part of keeping the economy running safely and effectively, and having officers on the street is critical to meeting this need. The City of Bloomington Police Department has requested an additional four officers in the 2009 budget. This will bring to a close the Mayor's five-year, 10-officer hiring plan. By allocating resources to effectively address the needs of our department, we will be able to more efficiently serve the business community.

Community Collaboration can be a very efficient way to maximize resources and talent. The Police Department will increase collaborative efforts with neighborhoods in the community by using technology and personnel to promote information sharing. We also intend to expand our Cops in School program to middle schools in an effort to break down communication barriers between residents and officers at an earlier age.

Community Condition goes to the heart of public safety. Police protection initiatives addressed in the strategic plan will be directly impacted by this budget. Two of these initiatives include funding for the small arms training facility, which will not only allow condition in our community to be improved

through hands-on training of Bloomington officers, but also will be a collaborative opportunity to provide training to officers across the region. The addition of the previously mentioned officers will also allow condition to be improved by increased policing services and more efficient service to the community.

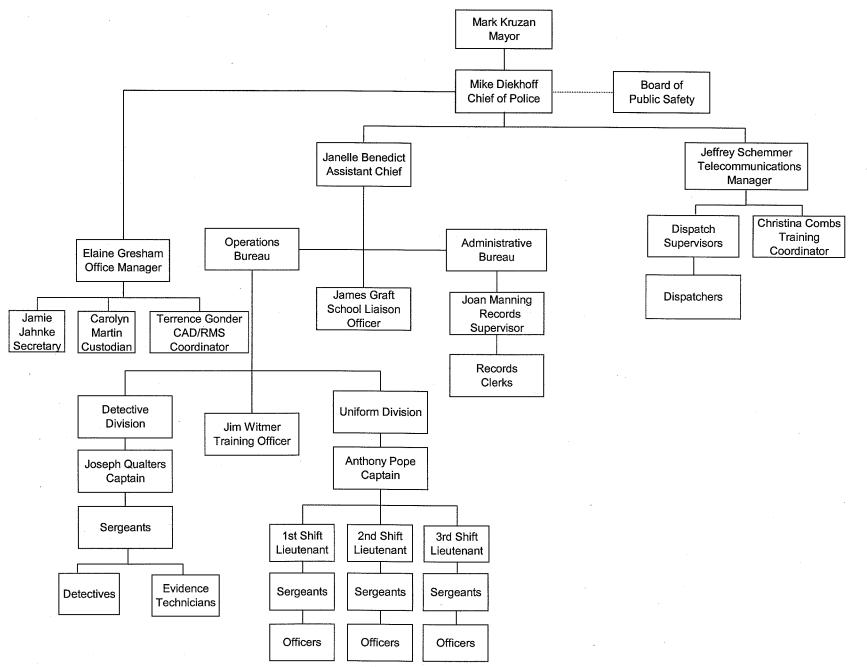

Community Character is what sets Bloomington apart from other communities. As a community, we must safeguard, enhance and celebrate what is special about Bloomington, and as government, we must protect and promote our uniqueness. Supporting public safety ensures that we will continue to have the type of community character that makes Bloomington special. By supporting this budget request you will accomplish this task.

Police 2008 Budget vs. 2009 Budget

Memorandum

To: Members of the City of Bloomington Common Council

From: City of Bloomington Fire Chief Roger Kerr

Date: July 16, 2008

I would like to thank the City Council for your support of the City of Bloomington Fire Department. The proposed budget will allow the Fire Department to continue to provide the high quality of service that has been a trademark for 108 years. The Bloomington Fire Department is a vital part of the over all City strategic objectives consisting of Community Commerce, Collaboration, Condition and Character.

The Bloomington Fire Department plays a major role in Community Commerce by providing protection to businesses that allow for new and continued growth. Also for the first time in recent memory, we are bringing training and other department related functions to Bloomington that have had a positive economic impact.

The Bloomington Fire Department is heavily involved in community Collaboration. The department has partnered with Ivy Tech to create a Fire Science degree at the Bloomington campus. We have also partnered with Hoosier Hills career center to offer a Firefighter I class. We also continue to support other agencies such as Habitat for Humanity by providing the needed smoke detectors for their projects.

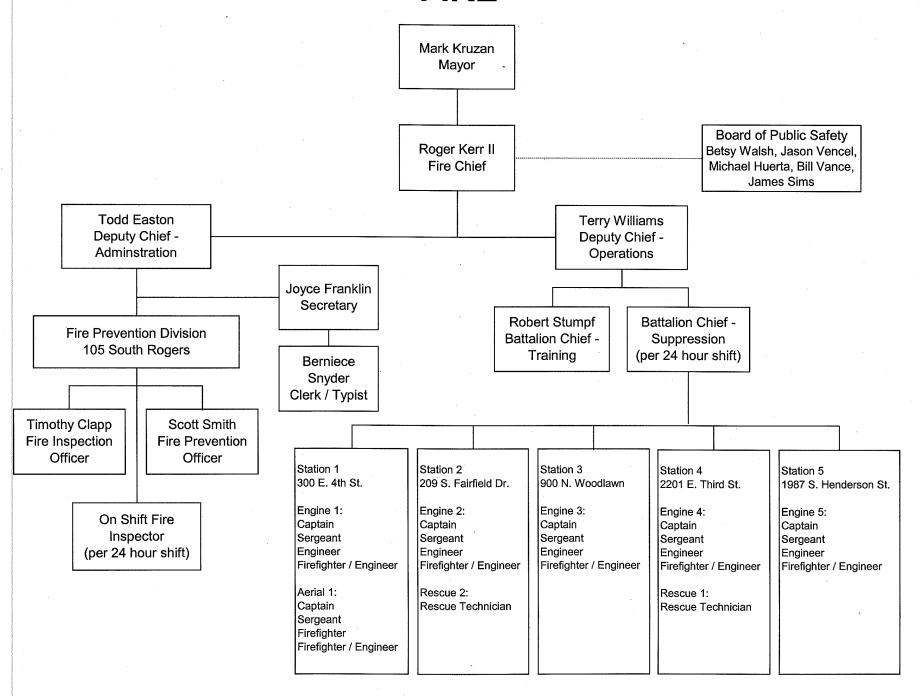

The Bloomington Fire Department continues to provide professional emergency service to the community, which contributes to the high quality Community Condition in Bloomington. Public safety is an important part of making Bloomington a place that people want to work and live. Firefighters have become a major part of Bloomington's Community Character including the location of the fire stations in neighborhoods and the host of fire prevention and safety activities that the department provides.

The 2009 budget includes funding that will allow us to build upon the training opportunity that we now have accesses to with the new training tower. \$4,800 of the increase in line 1130 will allow us to conduct a minimum of eight live burns. In line 4420 we are requesting \$10,300 to install the Bloomington Fire Department's first Mobile Data Terminal in Battalion 1. This will allow for the Commander Officer to

have instant accesses to needed information so they can make better informed decision on the emergence scene.

In closing, I would ask that you support this year's budget proposal so that the City of Bloomington Fire Department can continue to serve the community to the highest standard possible.

FIRE

Fire Department 2008 Budget vs. 2009 Budget

Memorandum

To: Members of the City of Bloomington Common Council

From: Patrick Murphy, Director, Utilities Department

Date: July 16, 2008

For its 2009 Budget Proposal, the City of Bloomington Utilities Department has employed zero-based budgeting techniques to evaluate and define all of its cost centers. For the Utilities Department, this process involved closely examining expenses and revenues with a focus on rising variable costs. Along with this approach to the 2009 Budget, the department has also focused on incorporating the service principles of the strategic plan as highlighted in the mission and vision statement of the City. This plan focused on all departments of the City, providing the highest quality services that will give all residents, especially customers, confidence in their local government's ability to meet high expectations of performance and service.

As has been noted, the department incorporated a zero-based budgeting approach to this year's request. This evaluation revealed a number of trends that have been incorporated into the 2009 Proposal. We believe that by taking this approach we are able to address trends in a fashion that will allow us to focus our resources, meet our goals, and continue to improve Community Commerce and Community Condition through fiscally responsible management of the utility. The trends and actions specific to 2009 and the C they address include:

Community Condition: First, the Department has seen constant increases in fuel and energy costs and expects these increases to continue in the future. Over the years, the Department has strived to make its operations as energy efficient as possible. However, increases in the cost of these items have outpaced our efforts to reduce consumption. As a result, this proposal includes a 10% increase in all fuel and energy related expenses.

Community Commerce: Second, the department has seen a consistent 2.5% annual increase in revenue over the past few years. The actual annual amounts can vary widely due to factors such as rainfall and development resulting in new connections. However, we feel this trend will continue and possibly rise at a faster

rate as our community continues to grow. To maintain conservative estimates, this proposal includes a 2% increase in revenue projections.

Community Condition: Third, we identified the need for additional personnel to make our operations more effective and responsive to the needs of the community. This budget proposal includes an additional employee in two of our departments: Engineering and Meter Services. As our community and our utility grow, the workload of these departments increases. These new positions will allow for a more even distribution of duties allowing each and every employee to function in a more efficient and effective manner.

Introduction to the 2009 Budget Proposal

For its 2009 Budget Proposal, The City of Bloomington Utilities Department has employed zero based budgeting techniques to evaluate and define all of its cost centers. For the Utilities Department, this process involved closely examining all of the department's expenses and revenues with a focus on rising variable costs. This evaluation revealed a number of trends that have been incorporated into the 2009 Proposal.

First, the Department has seen constant increases in fuel and energy costs and expects these increases to continue into the coming years. Over the years, the Department has strived to make its operations as energy efficient as possible. However, increases in the cost of these items have outpaced our efforts to reduce consumption. As a result, this proposal includes a 10% increase in all fuel and energy related expenses.

Second, the department has seen a consistent 2.5% annual increase in revenue over the past few years. The actual annual amounts can vary widely due to factors such as rainfall and development resulting in new connections. However, we feel that this trend will continue and possibly even rise at a faster rate as our community continues to grow. To maintain conservative estimates, this proposal includes a 2% increase in revenue projections.

Third, we identified the need for additional personnel that will make our operation more effective and responsive to the needs of the community. This budget proposal includes an additional employee in two of our departments: Engineering and Meter Services. As our community and our utility grow, the workload of these departments increases. These new employees will allow for a more even distribution of duties allowing each and every employee to function in a more efficient and effective manor.

Fourth, based on recommendations from the City's Fleet Maintenance Department, this budget proposal includes funds for the replacement of some aging equipment including: a Vactor combination sewer cleaner and two service trucks. These vehicles are essential to our operation and have aged beyond the point of cost effective repairs. We have explored other options such as renting or leasing this equipment and have found this investment to be in the best long-term interest of the department and its rate payers.

Finally, we identified a number of expenses that were more appropriately allocated to other cost centers. For instance, training expenses allocated to the director's budget have been moved to the plants and Transmission & Distributions as these departments rely more on outside training as opposed to the courses offered by the City's Employee Services Department.

Combined Budget

The Operations & Maintenance portion of this proposal combines Water, Wastewater, and Stormwater expenses to simplify the format and make changes more transparent. Detailed listings for each utility have been included at the end of the proposal.

A GUIDE TO LINE ITEMS

Salaries & Wages – Employees

This line includes the salaries and wages for all departmental employees. It combines all types of employees (full-time, part-time) and all types of pay (regular-time, over-time, holiday-pay).

Salaries & Wages – Officers & Directors

This line includes the salaries and wages for the Utilities Service Board, Director, and Deputy Director. In the past, this expense has been distributed across all departments. As a result of the 2005 budget reorganization, this line will only appear in the director (11) and the Utility Service Board's (12) budget.

FICA

This line represents the federal payroll tax which includes Social Security and Medicare. It is equal to 7.65 percent of the total salaries and wages. In the past, this line has been distributed proportionally to each department. In accordance with the Indiana Utility Regulatory Commission's (IURC) accounting guidelines, the full amount is now represented under the Utility Service Board's (12) budget.

Pensions & Benefits

This line represents PERF benefits, health insurance, and life insurance. The PERF portion is equal to 10.25 percent of the total salaries and wages. The amounts for health and life insurance have been supplied by the City of Bloomington Controller and are subject to change. In the past, this line has been distributed proportionally to each department. In accordance with the IURC's accounting guidelines, the full amount is now represented under the Utility Service Board's (12) budget.

Chemicals

Most departments do not incur expenses for chemicals. For those that do (41, 42, 51, & 61), this line includes chemicals such as:

Anhydrous Ammonia

Chlorine

Lime

Alum

Fluoride

Polymer

Potassium Permanganate

Polyaluminum Chloride

Materials & Supplies

This line is very broadly defined. It includes any expendable items such as paper, light bulbs, gloves, etc. It also includes repairs and maintenance of structures and treatment equipment. Purchased items that are not considered capital outlays are included here. This line item also includes materials and supplies for:

Lines Engineering & Survey Equipment
Services Pumping Equipment
Meters Treatment Equipment
Hydrants Records & Collection Statements
Meter Reading Office Supply Expenses
Structural Improvements General Plant Maintenance

Furniture & Fixtures

Computer equipment, office furniture & equipment, and the cost of maintaining these items appear in this line.

Liability Insurance

This line represents the liability insurance that CBU is required to carry. This amount is supplied by the City of Bloomington Controller and is subject to change.

Purchased Water

This line only appears under the Monroe Treatment Plant. It is the cost of water purchased from the Army Corps of Engineers.

Purchased Power

This line is CBU's electricity bills. It is included only for departments where large amounts of power are utilized such as the Monroe, Dillman, & Blucher Poole Treatment Plants and the Booster & Lift stations. The CBU's General Ledger divides these expenses between pumping, treatment, and general power expenses.

Utilities General

This line includes all utility bills other than electricity, such as telephone, pager, and internet service bills.

Contracted Labor

This line includes cost for temporary employees. Due to changes in the City of Bloomington's policies concerning temporary employees, CBU no longer employs any temporary employees.

Sludge Removal

This line includes the cost of removing sludge at the wastewater treatment facilities. It should be noted that some portion of the total sludge removal expenses is distributed throughout Salaries & Wages and Materials & Supplies.

Training

This line consists of expenses attributed to continuing education and travel.

Contracted Services

This item includes professional services procured by CBU.

In Lieu of Taxes

This line is part of the interdepartmental agreement. It is CBU's contribution to the Civil City in lieu of property tax revenue. The amount is based on CBU's total fixed assets within the City limits. This expenditure is charged to the Utility Service Board's (12) budget.

Interdepartmental Expenditures

This line accounts for funding agreements made between CBU and the Civil City. This payment is designed to reimburse the Civil City for the services it provides to CBU. It includes services such as Information Technology (ITS), legal, risk management, the Office of the Controller, police, and fire protection. This expenditure is charged to the Utility Service Board's (12) budget.

Bond Issuance Cost

This line item represents the cost of issuing bonds and is found in the director's budget.

Transportation

This line is the Fleet Maintenance bill that is paid to the Civil City each year. It is comprised of vehicle repair and fuel costs. It is divided among the various departments according to the number and value of the vehicles assigned to each department.

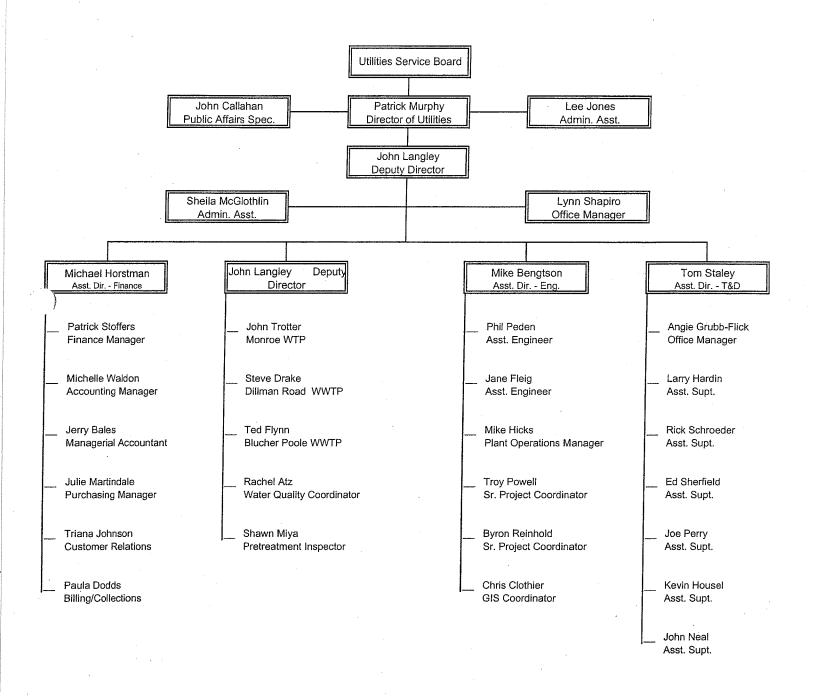

Miscellaneous Expenses

This line includes a wide variety of expenses. It is mostly comprised of shipping, mandated expenses for drug testing, and obsolete inventory costs. For 2006, it also includes rental payments for office space at the North Showers building.

Equipment

This line includes all equipment purchases to be paid from operating funds that meet the criteria for capitalization. All equipment purchases that exceed \$10,000 will be capitalized.

City of Bloomington Utilities Department Organization Chart 2008

Program / Service

Utility Service Board

Program Description:

The USB has broad oversight of CUD policies and activities and is governed by nine members, four appointed by the Mayor, three appointed by the Common Council and two serving in an ex-officio capacity representing the interests of the Council and the Mayor.

Administration

Program Description:

CUD Administration oversees the day to day operation of all CUD departments. The Director develops policy with the Utilities Service Board and the Mayor and is directly responsible for implementing that policy.

Accounting

Program Description:

The Accounting Dept. has five primary responsibilities including income tracking, operation and maintenance, accounting, debt management, and capital financing. Accounting is responsible for the processing of all daily financial transactions of the Water, Wastewater and Stormwater Utilities, including the daily deposits and reconciliation of revenues; processing, paying and reporting CUD payroll; and processing and paying for CUD expenditures.

Purchasing

Program Description:

Purchasing and Materials Management provides all CUD departments with overall procurement services. This includes purchasing, inventory and facilities management, warehousing, records retention, mobile devices, fleet inventory, courier services, master key management, surplus, and equipment accountability. Purchasing strives to purchase the best quality of goods and services at the lowest price to meet CUD goals.

Program / Service

Customer Relations

Program Description:

The Customer Relations Dept. seeks to provide the best possible service to CUD customers. This includes assisting customers with starting and stopping water and wastewater service, making sure that paperwork is completed correctly, assisting customers on the phone and in person with billing questions or concerns, selling septage tickets to waste haulers for dumping at Dillman WWTP, assisting customers with paperwork for new service, and working closely with the engineering, T&D and meter services regarding new services.

Billings and Collections

Program Description:

Processes and manages all collections (collection of outstanding debt) due to CUD; establishing customer payment plans; billing, address changes and online payments through Aqua-Pay; and the processing of adjustments, lien letters and NSF items. These tasks are completed through data entry and the maintenance of electronic and paper files.

Engineering

Program Description:

The Engineering Dept. is responsible for engineering oversight for design construction and maintenance of all water, wastewater, and storm sewer pipelines that are owned, or will be owned, by CUD. Other functions include maintaining informational databases for CUD pipelines; computer mapping of all CUD pipelines; calculating appropriate service pipe sizes to be installed; issuing permission for service connections to CUD wastewater and water mains; keeping records on and securing needed easement rights and property ownership for all CUD projects; providing long-range planning vision and involvement in the budget process to ensure infrastructure improvements can be made; and interacting with and providing information to the general public, engineers, architects, designers, other City departments and governmental agencies.

Program / Service

Blucher Poole WWTP

Program Description:

Blucher Poole wastewater treatment plant is responsible for treating wastewater generated in the northern part of the Bloomington collection system. Employees strive to maintain levels of discharges lower than those required by the state and produce a safe byproduct of operations for disposal (sludge). Blucher Poole employees work within CUD budget guidelines to maintain an above average level of performance.

Dillman Road WWTP

Program Description:

Dillman Road is Bloomington's largest wastewater treatment plant, processing an average of 9.5 million gallons per day. Both wastewater plants are monitored by the State of Indiana for compliance with their respective NPDES permits.

Laboratory

Program Description:

The Dillman Road Laboratory is a key component of the department's environmental compliance program. The laboratory either conducts or arranges testing for all water and wastewater programs. The Laboratory Director works closely with the Utilities Director and Deputy Director to resolve regulatory and environmental policy issues.

Monroe

Program Description:

The Monroe Water Plant is the primary source of drinking water for Monroe County. Ten rural water corporations rely on CUD for water. Monroe employees conduct laboratory analyses, operate and maintain the system to ensure reliable delivery of high quality water.

Program / Service

T & D

Program Description:

The Transmission and Distribution Dept. is responsible for maintenance and installation of water and wastewater lines throughout the service area. T&D also installs and reads meters, initiates and terminates water service to customers and troubleshoots customer complaints. T&D manages the department's communications operators who respond to customer telephone calls. Typical activities in the Communications Dept. include scheduling after hours emergency work and responding to calls for services from other city departments (Street, Public Works, Animal Shelter) and the American Red Cross.

Includes:

71: Transmission & Distribution

75: Meters

72: Booster stations

95: Communications

73: Lift stations

Stormwater

Program Description:

The Stormwater system is comprised of about 70 miles of roadside ditches, open channels and natural streams, 100 miles of small diameter collection pipes with inlets and 25 miles of large diameter culverts and tunnels.

Notes about the Total Budget Overview

60 Day Reserve for O&M

CUD's Bond Covenants require the department to maintain cash reserves equal to 60 days of operating expenses. This line is calculated by dividing the total Operations & Maintenance budget by six.

Extensions & Replacements 2007 Extensions & Replacements figures include amounts carried over from previous years.

Restricted for Ongoing Capital Projects

This line represents projects that were budgeted in previous years and have not yet been completed. It is equal to the difference between the 2007 budgeted amount and the 2007 actual amount minus any budget overruns. A list of these projects is available upon request.

Notes about the Revenue Projections

Total Revenue
2008 Revenue projections show a 2% increase in customer revenue based on recent trends.
Although past years have been overestimated, the department has seen a 2.5% average annual increase in revenue over the last 5 years due to growth and lack of rainfall during summer months. The department believes this trend will continue into 2009 and beyond.

Notes about the Total Budget Overview

60 Day Reserve for O&M
CUD's Bond Covenants require the department to maintain cash reserves equal to 60 days of operating expenses. This line is calculated by dividing the total Operations & Maintenance budget by six.

Please refer to the pages CB-12, CB-28, and CB-34 respectively for detail about the Revenue, Debt Requirements, and Extensions & Replacements budgets

Notes about the Total Budget Overview

60 Day Reserve for O&M
CUD's Bond Covenants require the department to maintain cash reserves equal to 60 days of operating expenses. This line is calculated by dividing the total Operations & Maintenance budget by six.

Please refer to the pages CB-12, CB-30, and CB-34 respectively for detail about the Revenue, Debt Requirements, and Extensions & Replacements budgets

Memorandum

To: Members of the City of Bloomington Common Council

From: Tom Micuda, Director, Planning Department

Date: July 16, 2008

This memo outlines the Planning Department's proposed 2009 budget. Specifically, the memo integrates the budget with the Administration's larger goal of ensuring a vibrant quality of life in Bloomington through improving Community Commerce, Collaboration, Condition, and Character. In this memo, the Planning Department's 2009 budget initiatives are specifically linked to these goals shared by City officials and Council members.

Community Condition – The Planning Department's proposed 2009 budget will enhance Community Condition through the following initiatives:

 Long Range Transportation Plan Update – Every five years, the Bloomington/Monroe County Metropolitan Planning Organization (MPO) is required to update its 30 year long range transportation plan. In order to complete this update by the required 2010 deadline, the Planning Department, which provides all staff support for the MPO, will need to initiate an update of the current plan during 2009.

In association with this Plan update, the Planning Department will require assistance from a transportation planning consultant to update the department's long range travel demand forecast model. Given recent trends toward much higher fuel prices, concern over carbon emissions, and the potential effects on vehicle tripmaking, having the expertise of a consultant will be particularly important during this update process.

The Planning Department is proposing to spend a total of \$100,000 to fund this consultant study. \$70,000 would be spent in fiscal year 2009 while \$30,000 is proposed for 2010. These expenditures are 80% reimbursable back to the General Fund, meaning that the actual fiscal impact to the Department's Line 317 budget is only \$14,000. The Long Range Transportation Plan is important in improving Community Condition because it provides citizens from both the City and County with a comprehensive 30-year picture of what investments need to be made to

improve all modes of transportation affecting vehicle users, bicyclists, pedestrians, and transit riders.

- Professional Development To retain top quality staff, it is necessary to make
 investments in staff training and expertise so we can continue performing Planning services
 as efficiently and professionally as possible. In addition, the American Planning Association
 is now requiring all professional planners holding American Institute of Certified Planners
 status to complete 32 credit hours of continuing education every two years. Because of
 these increasing professional development burdens, the Planning Department is proposing
 the following 2009 budget increases:
 - Instruction (Line 316) \$700 increase over 2008
 - > Travel (Line (Line 323) \$1263 increase over 2008
 - Dues and Subscriptions (Line 391) \$750 increase over 2008

This overall increase of \$2713 represents a very minor change to the department's professional development budget but will pay large dividends in greater staff capability to accomplish planning projects.

Community Commerce – In addition to improving Community Condition, the Planning Department's proposed 2009 budget will also enhance Community Commerce through the following initiative:

South Walnut Street Redevelopment Plan – This is a new initiative designed to improve
the redevelopment potential of properties along the South Walnut Street corridor, from the
southern edge of the Commercial Downtown zoning district on Dodds Street to the
intersection of South Walnut Street and Winslow Road.

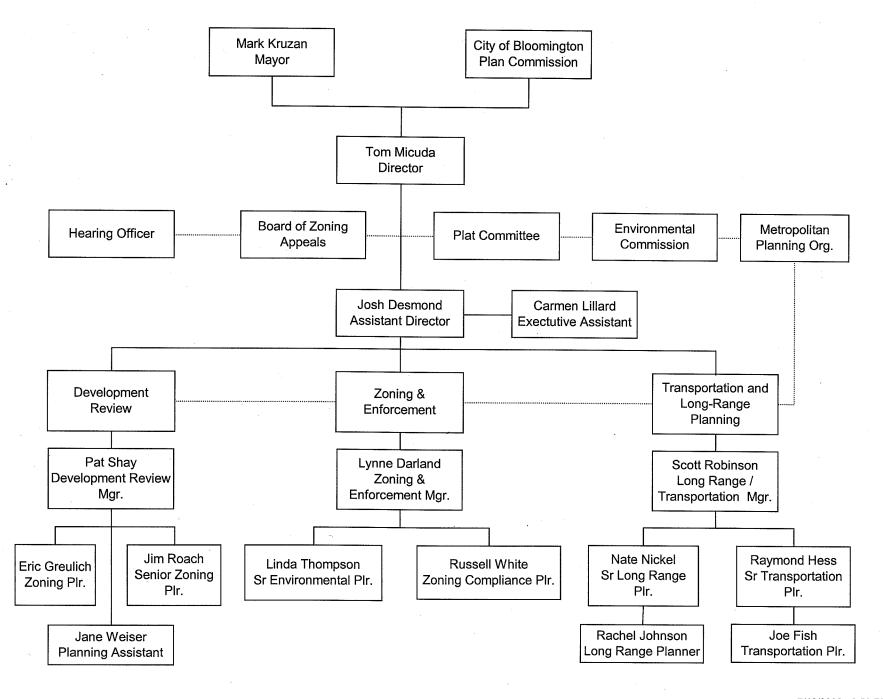

Since the South Walnut Street roadway widening project in the early 1990s, there has been very little redevelopment and new development that has occurred along this business corridor. Since the corridor has an ample supply of commercial zoning, there is not an obvious zoning barrier that has prevented new investment along South Walnut Street.

Because the City's Growth Policies Plan encourages redevelopment along existing commercial corridors as opposed to new commercial development on either the periphery or in areas not currently zoned for business usage, a forward-thinking redevelopment plan is needed to promote high density, mixed use development along Walnut Street using a combination of both regulatory incentives and financial incentives. Portions of the South Walnut Street corridor study area are located within City Tax Increment Finance Districts. Since corridor redevelopment is specifically expressed as a goal of the Thomson/Walnut-Winslow TIFs, the Planning Department proposes to expend \$75,000 of TIF revenues rather than general fund money to hire a consultant to assist with this study. This limits the proposed Line 317 increase from a total of \$16,000 in 2008 to \$70,800 in 2009.

In addition to these items which cause the Planning Department's overall budget to increase from \$1,001,242 in 2008 to \$1,092,423 in 2009, there are several other initiatives being proposed by the Planning Department which have no immediate fiscal impact to any other funds. These are as follows:

- Year 7 Implementation of the Bicycle and Pedestrian Transportation and Greenways System Plan (Community Condition).
- Implementation of bicycle and pedestrian improvements called out for in the bicycle and pedestrian accessibility study for College Mall/Eastland Plaza (Community Condition – Study to be completed in fall of 2008).
- Year 2 Implementation of the Neighborhood Capital Improvement Program (Community Condition).

Memorandum

To: Members of the City of Bloomington Common Council

From: Lisa Abbott, Director, Housing and Neighborhood Development

Department

Date: July 16, 2008

The Housing and Neighborhood Development (HAND) Department provides many programs and services designed to help maintain the unique and individual character of Bloomington while maximizing our resources. The HAND budget is made up of several funds including the General Fund, Community Development Block Grant, HOME Investment Partnership Program, and outside programs and grants such as the Bloomington Urban Enterprise Association and the Housing Counseling Program. The Community Development Block Grant budget will come before you in March, which is prior to the start of its fiscal year, June 1. We will provide you with updated 2009-2010 goals at that approval meeting. Our goals for 2009 include:

Community Commerce:

As part of furthering community commerce, HAND will continue to:

- Provide assistance to businesses and individuals to expand their business or professional opportunities through the Bloomington Urban Enterprise Association (BUEA). Councilmember Sturbaum is the City Council's representative to the BUEA board; and
- As part of the City's efforts on sustainability initiatives, HAND will incorporate lessons learned from EverGreen Village into our construction guidelines. These guidelines must be followed by any individual or entity receiving funds to build affordable housing.

Community Collaboration:

The HAND Department collaborates with a variety of community agencies and educational institutions including:

 Providing a housing counselor to the Shalom Community Center to assist their customers with housing difficulties through the Housing Counseling Program;

- Collaborating with local committees such as the Don't Borrow Trouble group and the Section 8 Homeownership Program committee to provide educational opportunities and technical assistance. HAND also provides assistance to the Housing Network with the homeless count and the Continuum of Care application; and
- Working with the Bloomington Housing Authority on a number of initiatives including sponsoring National Night Out under our Neighborhood Services Program.

Community Condition:

Using General Fund, HAND's goals include:

- Strengthening our community neighborhoods by cycling approximately 5,000 rental units and providing inspections on a complaint basis;
- Investing in neighborhoods with the Neighborhood Capital Improvement program, using the Rogers Streetscape to design future projects, and working with Public Works and Utilities to install and improve infrastructure in Broadview;
- Strengthening social service agencies and enhancing services to low income populations by providing administrative assistance to the Jack Hopkins Council Social Service Grants Program (2009 funding requested is \$180,000 which is an increase of \$15,000);
- Providing citizens with information on programs such as Pick-it Up, Quiet Nights, Lower the Boom, and Title 6;
- Providing funding and technical assistance for Neighborhood Improvement Grants and Small & Simple Grants;
- Hosting two neighborhood clean-ups and Blooming Neighborhood Awards; and
- Hosting the 11th Annual Citizens' Academy and the Youth Citizens Academy with Bloomington High School North.

Using CDBG:

- Increasing investment in infrastructure by providing \$118,784 to install curbs, sidewalks and storm water systems in low to moderate income areas and for lowincome housing projects. This includes funds approved for the Templeton Safe Routes to School project;
- Strengthening our community's neighborhoods by providing 10 emergency home repair grants, 12 home modifications for accessibility and three housing rehabilitations (partially funded by HOME);
- Developing the Consolidated Plan 2010-2015, which is the City's five-year strategic plan for the use of CDBG & HOME; and
- Strengthening social service agencies by providing operating funding through the Community Development Block Grant program.

Using HOME:

 Increasing the diversity of the housing market by completing Phase 2 of EverGreen Village and assisting Middle Way House with the creation of six affordable housing units;

- Undertaking a feasibility study on the development of senior housing in the downtown;
- Strengthening our community neighborhoods by providing funds to rehabilitate existing homes through a variety of HAND programs; and
- Providing Tenant Based Rental Assistance to the Bloomington Housing Authority to help shelter households on their Section 8 waiting list.

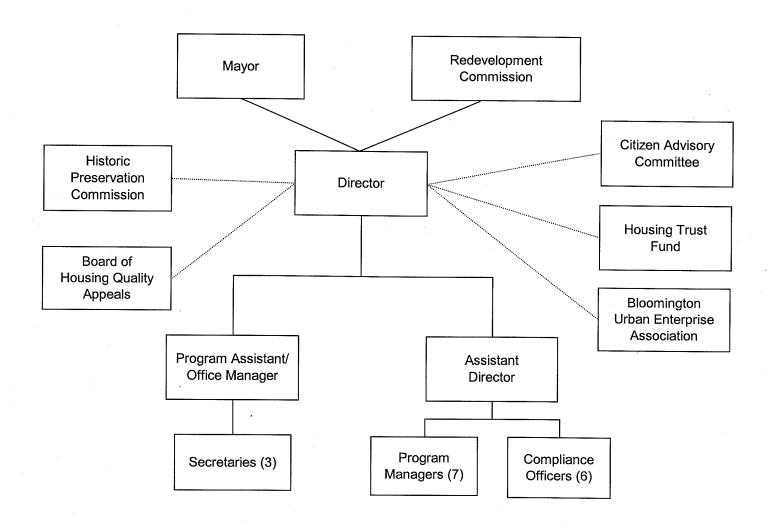

HAND will provide educational opportunities through the Home Buyer's Club, This Whole House and R101 – Renting in Bloomington. We will also continue to provide the needed one-on-one counseling to local residents in the areas of pre-purchase, default, homeless, rental and reverse mortgage counseling through our housing counseling program.

Community Character:

To preserve our community character and heritage, HAND provides the following:

- Locating and coordinating incentives for adaptive reuse of historic properties in the downtown;
- Hosting educational seminars and workshops on historic preservation topics and provide technical assistance to the owners of historic properties;
- Reviewing projects for Demolition Delay or a Certificate of Appropriateness and, when needed, provide scholarships for renderings or plans to owners to facilitate a more complete review process;
- Working with interested neighborhoods investigating conservation districts or historic districts; and
- Surveying areas not included in the Interim Report for the next report and as requested by eligible neighborhoods.

Memorandum

To: Members of the City of Bloomington Common Council

From: Pete Giordano, Director, Community and Family Resources Department

Date: July 16, 2008

This memo accompanies the Community and Family Resources Department's 2009 budget request. This year's budget request utilizes the 'zero based budgeting' concept in an effort to submit a budget request based on a careful consideration of the funds actually needed to support departmental activities and goals outlined in the Strategic Plan for 2009. Below I provide a short overview of our program areas, reference how the CFRD budget request reflect the strategic planning process and present the highlights of our 2009 budget request.

The budget request is also developed with a view toward addressing the 4Cs as described in the Strategic Plan. Our work is focused primarily in the areas of Community Collaboration, Community Condition and Community Character. We join forces with community groups such as County government, local nonprofits, businesses and educational institutions as well as other City departments to address a broad range of issues that impact the human condition as well as enhance and celebrate what is special about Bloomington.

We achieve this by developing and maintaining relationships with key partners in the city to seek new collaborative opportunities. The department provides programs, amenities and services that result in a safe, civil and healthy community with many opportunities for civic engagement and volunteerism. By addressing community-related issues and partnering strategically with effective community organizations, CFRD is able to contribute to the City's broad-based and comprehensive effort to improve the quality of life for all residents.

Program Areas

City of Bloomington Volunteer Network - The CBVN collaborates with individuals, nonprofit organizations, and businesses, communities of faith, Indiana University and Ivy Tech State College to create a network of volunteers to address community issues, promote volunteerism and build on community assets.

Healthcare Projects - The Healthcare Projects area assesses and addresses healthcare needs in the community. The Healthcare Projects Coordinator partners with community agencies and organizations to address access to healthcare in the community, community wellness and screenings, and children's health issues.

Safe and Civil City Program - The Safe and Civil Program is an innovative program that promotes safety and civility in the Bloomington and Monroe County community. The Safe and Civil City Program collaborates with social service, community and law enforcement agencies as well as citizen groups, Indiana University and other City departments to address diversity, civic engagement and civility issues.

Special Projects/Commissions – This program provides staff support to the Council for Community Accessibility, Commission on Status of Women, Commission on the Status of Black Males and the Dr. Martin Luther King Jr. Birthday Celebration Commission. All of these commissions deal with human rights and equality issues.

Values and Goals

The CFRD budget request is grounded in the City's Strategic Plan and is intended to reflect the Values and Goals listed below:

Values

- Uncompromising customer service in the delivery of City services.
- A strong sense of community connection.
- Community diversity as a source of strength.

Service Goals

- Recognize the value of Bloomington's unique character and act to preserve, enhance, and promote it.
- Position Bloomington as a premiere destination for residents and visitors of all ages, cultures, races, and sexual orientations.
- Be a safe and civil city where residents can live with peace of mind.
- Ensure an open, approachable and interactive government where citizens are part of the decision making process.
- Inspire, equip, and mobilize people to take action through civic engagement, public involvement, and volunteerism.
- Exemplify collaboration by forging mutually productive relationships that maximize innovation, resources, talents and dollars.

Legal Budget

The 2009 CFRD Legal Budget request is outlined below. After an overview of the overall budget request and some general comments on the issues driving the needs, I highlight the line items which have increased in this year's budget request.

The total CFRD budget request for 2009 in total is \$698,006, which represents an increase of \$42,488. This increase in due largely to increases in Category 1 - Personal Services, and an increase of \$14, 248 in Categories 2 and 3.

In addition to more accurately basing this year's request on actual needs for 2009, the changes being requested are being driven by two factors: the need to budget specifically for some costs that are currently unfunded and the need to provide increases in some lines to address areas in which costs have increased over the years while budget lines in many cases have remained static. In past budget years, we have needed to cover these costs in unfunded areas by moving funds from other line items resulting in a displacement effect of reducing the availability of funds for programs and events.

Line Item Increases

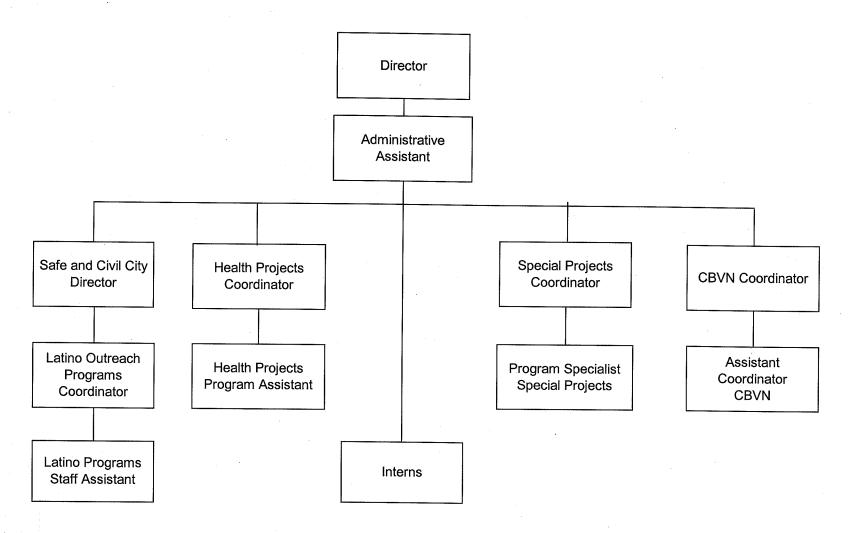

Category 2 - Supplies: This year we are requesting a total of \$11,609 in this category. Funding is requested in Office Supplies - \$3,832 and Other Supplies-\$7,777. This request is an increase of \$500 in each line to cover increased costs we have seen for items purchased out of these lines over the years.

Category 3 - Other Services and Charges: We are requesting a total of \$38,445 in Category 3, which is an increase of \$13,248. An area I'd like to mention in particular is a request of \$15,000 to support Grants activities, which is an increase of \$6,350. This will cover event-related costs of the more than 40 events we sponsor, implement or collaborate on each year and will participate in during 2009.

Closing

This budget request is designed to be reality based and frugal in requesting those funds needed to continue our service to the community and to fund new efforts for the 2009 budget year. We have utilized the 'zero based budget' concept and also formulated our budget request to reflect the strategic planning effort as well as tying our budget request to the department's work in addressing the 4Cs. I appreciate the Council's consideration of our request.

Memorandum

To:

Members of the City of Bloomington Common Council

From:

Mick Renneisen, Director, Parks & Recreation Department

Date:

July 16, 2008

CITY OF BLOOMINGTON MISSION

"To preserve and enhance the distinct identity of Bloomington, Indiana, by providing essential municipal services and economic, environmental, social and cultural programs and initiatives of the highest standards."

PARKS AND RECREATION DEPARTMENT MISSION

"To provide essential services, facilities and programs necessary for the positive development and well being of the community through the provision of parks, greenways, trails and recreational facilities while working in cooperation with other service providers in order to maximize all available resources."

THE 4Cs

Parks' programs and services are intrinsically evident in all of the 4Cs: **Community Commerce**, (e.g. National Softball/other events); **Community Collaboration** (e.g. 40 existing partnerships with other recreation and social service agencies in the community); **Community Condition** (e.g. programs/services promoting health and wellness, recreation and parks infrastructure dedicated to serving the community: and most importantly, **Community Character** (e.g. the B-Line Trail, greenspace acquisition, urban forestry and landscaping) Specific Parks initiatives in the 2009 budget request related to the 4Cs will be highlighted later in this memo.

BACKGROUND

The 2009 Parks and Recreation General Fund budget request reflects ongoing changes in service provision and cost allocation by activity and program unit. The budget request was formulated using the "zero based budget" model. There are many programs/services within each one of our 20 program unit budgets. Internally, we use a worksheet for each program/service that makes up a program unit budget.

These individual program/service budgets build up to the 20 program unit budgets. The 20 program unit budgets were combined to come up with the entire Parks and Recreation budget request.

PROGRAM UNIT ORGANIZATION

The Department provides essential services that enhance Community Commerce, Collaboration, Condition and Character through the following program units:

Community Relations, Aquatics (Bryan and Mills Pools), Frank Southern Ice Arena, Golf Services, Natural Resources, Youth Programs, Adult Services, Senior Services (BACC), Community Events, Adult Sports Services, Youth Sports Services, Banneker Community Center, Inclusive Recreation, Rhinos After School, Health and Wellness, Operations Services, Landscaping, Urban Forestry, Cemetery Services, and Administration.

GENERAL THEMES

Listed below are some general themes that impact this year's budget proposal. The issues are summarized in an effort to create a more comprehensive perspective of their impact on the Parks and Recreation Department.

Asset Management

The Parks and Recreation Department is responsible for stewardship of over \$44,000,000 of City of Bloomington assets throughout 2,242 acres, which includes a total of 40 sites. Included in these assets are: 11 buildings/facilities, 26 playgrounds, 21 tennis courts, 17 basketball courts, 2 cemeteries, over 18,000 street trees and 27 miles of trails. In a perfect world, we would replace a percentage of equipment such as mowers, vehicles, playground equipment, paved surfaces, athletic court surfaces, roofs, site amenities, HVAC systems and other items on an annual and regular basis.

In recent years we have had to defer capital replacement for many of these items. However, the 2008 budget has allowed us to purchase some much needed equipment, vehicles, and playgrounds while also returning some funding for court surface repair and park amenity replacement. The 2009 budget request also allows us to replace aging equipment and infrastructure directly related to Community Condition.

Addition of Acres/Facilities

More than 139 acres of property have been added to Parks maintenance responsibilities since 2002. In addition, development of facilities such as the Clear Creek Trail and the upcoming phases of the B-Line Trail will create additional responsibilities and expenses for our department. The downtown phase of the trail will require a high level of maintenance due to its anticipated high use and visibility. Here is an example of how the addition of acres/facilities adds cost to the parks budget: The cost of graffiti removal products, trash bags, light bulbs and paint are items that all come out of category 2. These items will be necessary when the B-

Line is in use. In addition, this section of the trail will be lighted, which will increase electricity costs, a category 3 expense, in 2009. We anticipate these additional expenses to equate to over \$5,600 in a full year of operation of the trail.

Five new playgrounds have been added to our inventory since 2002 to bring the total number of playground sites to 26. We also maintain landscaping areas at non-department assets such as fire stations, the Animal Shelter and Public Works department landscape medians. Since 2002, 12 additional landscape plots have been added. The cost of mulching these additional 12 areas on an annual basis has added \$2,610 in material costs alone to our budget.

In addition, increases in prices for water, landscape materials, gas to transport crews and labor costs have, over the past 3 years, added expenses to our budget. The 2009 budget request includes adding 9 additional medians to our list of properties to maintain. The cost of upgrading and maintaining these medians to acceptable standards is \$13,933. These projects are directly related to our Community's Condition and Character.

Categories 2 & 3

Like other departmental budgets, ours is impacted by increases in fuel, electric, gas, water and sewer charges. In addition, the cost of necessary supplies to provide parks and recreation services has also increased. Many of our areas, including parks, produce negligible revenue but are highly utilized. We have had less flexibility to respond to typical wear and tear to our assets as our budget resources have been compromised by steady increases in energy, water and supply costs.

From a programmatic viewpoint, the more participants in a program, the more costs associated with delivering the service. (More staff to maintain appropriate ratios; more supplies to prepare sports fields for additional games; more camp supplies to accommodate camp participants; etc.) Many programs can generate revenue to offset the expenses associated with an increase in participants. In fact, our department typically generates approximately \$2.3 million in revenue annually.

Our projected revenue for 2009 is \$2,371,868. Other programs, like the Summer Food Program, (Community Condition) are subsidized by tax dollars with no revenue to offset additional participants.

Every year at the conclusion of respective program seasons, staff evaluates the life cycle of the programs/services we deliver. This exercise helps us to determine if there is a program/service whose popularity has diminished or may reveal that another recreation service provider is providing the service and meeting the needs better than we are. Life cycle analysis can result in staff's recommendation to eliminate or add a program/service. Over the course of the last 12 years since we have implemented this approach, we have streamlined the delivery and number of services we have offered and re-allocated resources to new program growth areas.

As a result of this review process, we have initiated over 40 program partnerships with other community service providers. This has resulted in more efficient and effective delivery of services to our community and maximized available community

resources. The partnership initiative ties directly to Community Collaboration and helps all recreation service providers in the community be more efficient and effective at delivering services to our residents.

Opportunities

Recent comprehensive planning information has suggested that our indoor facilities, the Bloomington Adult Community Center (BACC), Benjamin Banneker Community Center (BBCC), Allison-Jukebox Center (AJB) and Frank Southern Center (FSC) are rated below our customers' expectations for quality. This is particularly apparent when comparing customer satisfaction with our outdoor facilities compared to our indoor facilities.

Additional survey information suggests that we need to respond to a highly requested community need for indoor space. While there is no request for funds to address this issue in 2009, we are exploring a potential option that may come to the Council at a later date. This initiative would have a direct link to all 4Cs.

Land Acquisition

We have not requested any land acquisition funds in the 2009 general fund budget. Fortunately, a separate land acquisition fund, fund 207, has a current balance of \$924,958. This fund has a dedicated percentage of COIT that contributes to the balance each year. Future land acquisition needs include recommended purchases of property for trail construction for the Jackson Creek Trail, natural resource protection at Griffy Lake and Leonard Springs Nature Park, as well as opportunities to acquire land for neighborhood and community parks.

While some of these land needs may be acquired through the planning process or donations, many will require cash. Of note, the Parks and Recreation Foundation has been a great resource in serving as a land gift entity and by raising funds for scholarship and other department needs. In recent years the Parks Foundation has been the recipient of several significant properties including the 12 acre PIC property adjacent to Wapahani, 2 parcels totaling over 16 acres near Twin Lakes and most recently the 30+ acre Goat Farm property. These gifts add to the greenspace in our community at no acquisition cost to our department but do increase maintenance costs.

Budget Highlights/Priorities

- 1. **B-LINE PHASE II FUNDING** (All Four Cs but most appropriate is CHARACTER)
- Funding for this project has been requested from the Downtown and Thomson/Walnut/Winslow TIF Districts.
- This high profile project has high expectations of care by the public and therefore higher maintenance standards. We are working on "Adopt-a-Trail" opportunities with businesses to lower maintenance costs.
- Construction of the B-Line Trail impacts the 2009 Parks budget request by approximately \$43,000 with increases in seasonal personnel for dedicated maintenance, agricultural supplies for plant material, and additional water and electricity.

2. INFRASTRUCTURE REPAIR/IMPROVEMENT (CONDITION)

- 40 parks
- 11 facilities
- 2,300 acres
- 27 miles of trails
- 26 playgrounds
- 42 parking lots
- 24 shelter houses
- 78 landscape plots
- Over 40 outdoor court surfaces

The above translates into \$44,000,000 of assets to repair/renovate with impact throughout the parks budget request. In addition, the following new initiatives have been submitted in the parks budget for your consideration:

- Restroom improvements to Butler Park
- Development of a Dog Park at Ferguson Park
- Matching funds to construct Phase I of the Jackson Creek Trail through the Goat Farm
- Renovation of the restroom/concession building at the Winslow Senior Fields
- · Parking lot, sidepath and culvert rehabilitation at Bryan Park, Henderson Street Lot

3. EQUIPMENT REPLACEMENT (CONDITION)

- Equipment Mowers, chippers, weed whips, golf and athletic field specialty equipment.
 - Requesting funds to replace 3 mowers, a multi-purpose "gator" for trail maintenance, a brush chipper and a trailer to haul equipment.

4. MAINTENANCE OF EXISTING AND NEW GREEN SPACES, MEDIANS, B-LINE (CHARACTER)

- New parks/trails add to maintenance costs across many budget lines Goat Farm, B-Line
- Each additional median that is constructed, in addition to existing city facilities, are maintained by parks. This incrementally adds labor and material costs to maintain these new medians. (\$13,933 for adding the medians on West 3rd and West 6th traffic calming)

5. AGRICULTURAL SUPPLIES (CHARACTER)

- Plant an additional 202 trees missing in various neighborhoods as identified in a recently completed Tree Inventory.
- Additional increase in this line is the result of moving expenses from the Park Non-Reverting Fund back to the General Fund plus some B-Line, cemetery new funding requests.

6. PROFESSIONAL DEVELOPMENT (CONDITION)

- Some certifications for staff plus additional requests to pursue professional development opportunities and increase knowledge which results in more efficiencies, staff retention and improved morale.
- Increase of \$14,395 in lines 316 and 323 combined.

7. PRINTING - COMMUNICATIONS (COMMERCE)

Many parks programs/services generate revenue totaling approximately \$2.4 million a
year. Our program guide is the number one way that our customers find out about our
services. Increases in printing and paper costs are noted in our budget and are
necessary to promote our revenue generating services as well as all other services our
department offers.

8. LAND ACQUISITION (CHARACTER)

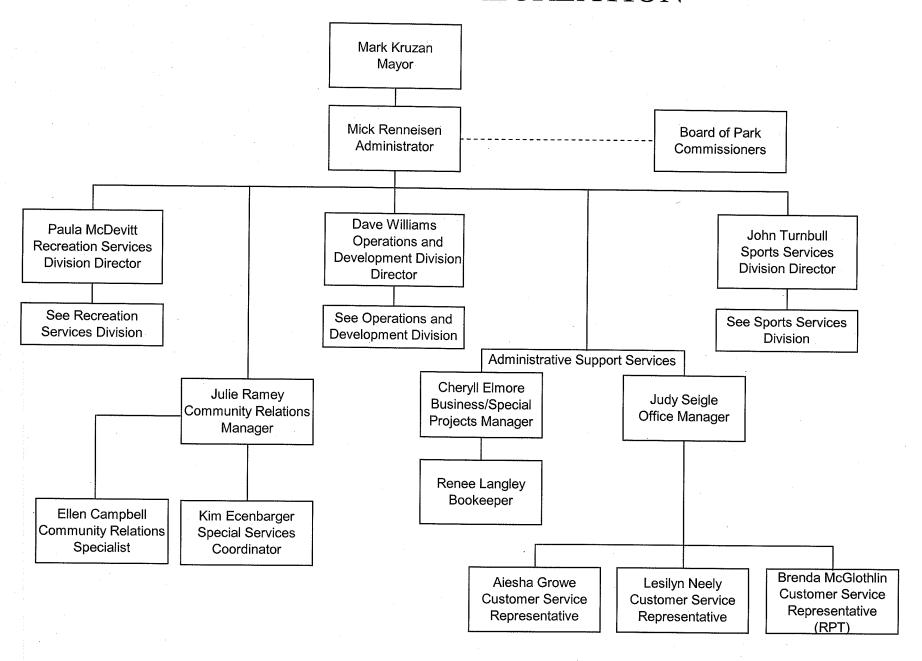

- Funded through a designated land acquisition fund.
- Opportunities include:
 - Lower Cascades Property
 - Muller Park (possible donation)
 - Switchyard (in 2008 budget)

9. NON-REVERTING FUND SUSTAINABILITY

 The 2009 general fund budget request returns \$88,919 of operational expenses from the non-reverting fund back to the general fund. This is the final adjustment necessary to return these expenses to the general fund. The majority of those expenses were returned to the general fund in the 2008 budget.

I would be happy to answer any questions you have. Please feel free to contact me. Our department looks forward to continuing to have a positive impact on the quality of life of Bloomington residents and visitors.

Memorandum

To: Members of the City of Bloomington Common Council

From: Susie Johnson, Director, Department of Public Works

Date: July 16, 2008

In preparation for our 2009 budget, Public Works carefully reviewed each of its eight division's budget requests and has presented a very practical budget. We used the zero based budgeting concept in our analysis and we believe it was successful. Below I would like to highlight some of our 2009 goals.

Animal: The proposed 2009 Animal Care and Control budget will focus on improving Community Condition by continuing to provide sheltering and field operations as well as educational opportunities. Our control and field operations will continue to provide 24-hour emergency rescue for pets as well as providing regular service calls and responding to citizen complaints. We will continue to provide shelter to animals from Monroe County through our partnership with County Animal Control. We are seeking an additional \$1,500 in our advertising line to increase awareness of adoption and spay/neuter needs.

We are currently using a downtown storefront location to bring dogs and cats offsite on Sunday for 3 hours. We have found that our visitor count is very low and are primarily people walking by who just stop to pet an animal but are not serious about adopting. Although it is good exposure for the shelter and good for the animals to get out, we have done fewer than five adoptions at the offsite since opening in April 2007.

Friday evenings and Saturday afternoons are our busiest times at the Shelter, and we anticipate we would have more visitors at the shelter on Sunday afternoon, who are serious about adopting, than we have at the offsite. This would make more effective use of staff time and showcase our animals better. We can only take 4-6 dogs and 3-4 cats to offsites based on space in the van, whereas all adoptable animals could be viewed here at the shelter.

To implement this change, we would need to increase the 20-hour kennel staff and secretary positions to 25 hours each. The Behavior Consultant/Outreach

Coordinator would be here as the manager on duty within the current budgeted hours.

Engineering: Our Engineering Department works very hard to improve Bloomington's Community Condition. In 2009 we are seeking \$13,900 less than in 2008, except for salaries. Our largest project in 2009 will be beginning the construction of the West 3rd Street project. Engineering will also work on several design projects funded through the Public Works budget.

<u>Fleet:</u> Fleet Maintenance currently has no on-site management. In this budget we are requesting a new position be created: Fleet Maintenance Manager.

Fleet's responsibilities continue to grow. We have additional administrative duties with new fuels, vehicle technology and city/county ventures. Our fleet has grown from 465 vehicles in 2003 to 494 in 2008. In addition to these numbered units there are numerous small equipment units, including lawn care, trailers, and police undercover vehicles, which have also increased in number and are maintained by Fleet Maintenance. The last time personnel were added to Fleet was 2004. By creating the much needed Manager Position, we will need to add an additional mechanic. We are requesting an apprentice position in 2009, and if granted, will ask that it be upgraded to a Master Mechanic in 2010.

We are also requesting an increase of \$59,000 in our motor vehicle repair line. Our fleet is aging and while the number of repairs has decreased the cost of the individual repairs has increased.

We are requesting an additional \$15,000 to purchase a new bulk oil tank. Currently all vehicles are using 15W40 oil, which is standard in the larger diesel trucks. If we had an additional tank we could store and use 5W30 oil in the light duty trucks and cars. 5W30 oil is less expensive to stock. We estimate the savings to be approximately \$3,000 annually.

We are also requesting an additional \$22,100 to replace the existing garage bay heaters. They are inefficient and expensive to repair.

Parking Enforcement: Parking Enforcement will work to improve Community Condition and Character in 2009, and we are proposing to do this while decreasing our overall spending by \$80,682. \$25,440 of this savings comes from a drop in the interest rate we are paying on the 7th and Walnut garage. We are requesting an additional \$9,180 to increase the pay of our School Crossing Guards from \$17 per day to \$20 per day. In 2009 we will be working to increase awareness of the available downtown parking. We will unveil several marketing efforts for our garages and collaborate with downtown business on parking awareness.

Public Works: After you back out the \$300,000 from the motor equipment line that was budgeted in 2008, you will see Public Works is requesting an increase of \$14,458. Some major projects proposed in this request are design funds for the

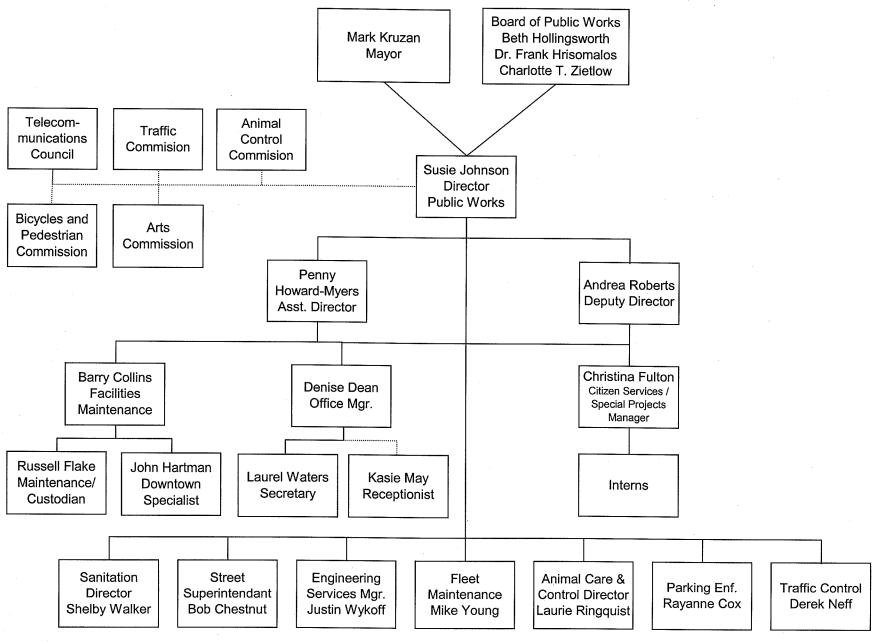

Sare and Rogers Road intersection, and the purchase of right of way for improvements to South Rogers Street from Watson to Rockport. We will also begin the design work for improvements to Arlington, Crescent and 17th Streets, while also beginning the construction of major pedestrian improvements to South Henderson Street from Allen Street to Hillside.

Street Department: Street Department certainly is key to Community Condition and to keep our streets safe and passable. We are seeking an additional \$392,753 that will be used to increase our deicing material stockpile and to help get us back on track with our paving schedule.

<u>Sanitation:</u> Sanitation services will continue in 2009 much like last year. We are requesting \$10,400 in our uniform line to purchase some all weather gear for our employees. We are also projecting a 10% increase in our tipping fees for 2009. Our current contract will expire in June 2009.

<u>Traffic:</u> We would like to add a skilled technician to the staff. Our new Manager has taken a very new and progressive approach to running the division. The division is no longer contracting out all of our signal upgrade work. We are doing the upgrades ourselves. This is allowing us to stretch our dollars much further. In 2008 we budgeted \$190,000 to complete 2 intersection upgrades. With our own crews doing the work we will actually be able to upgrade 2 intersections plus 31 pedestrian indicators with LED bulbs, and also add a new Crosswalk Man, which is now a federal requirement, along with a variety of other initiatives.

Department of Public Works
